

Emergency Medical Technology

There can be perhaps no greater calling than to save a life. If you want to be a part of the most dynamic and evolving career in medicine and public safety, consider an associate's degree in Emergency Medical Technology from Tri-County Tech. Individuals who work well under pressure in stressful situations will excel once you learn the skills necessary to provide care to sick or critically injured patients, including:

- Medical terminology and Anatomy
- Rapid assessment and diagnosis
- Critical treatment techniques
- Medical / Legal Documentation
- Crew resource management and planning

As part of the EMT program, you'll also prepare for national certification tests required for employment. Whether you're working for an ambulance service, fire department, hospital, or police department, your time as an Emergency medical Technician or Paramedic will never be the same from one day to the next.

[Learn more about program requirements](#) and related certificates. Scroll to the degree program and select "display programs."

PLUS »

Content matter experts provide training for additional certifications that will increase your knowledge base and marketability for employment.

Students have access to the latest technological advances and training equipment in prehospital care.

Adaptability and access to further educational opportunities for expanded practice and career paths are explored.

Students will be working with our new ambulance simulator to enhance their learning in real-life scenarios.
